

# Training

## Service Benefits

HP Anyware Training helps you to:

- Learn PCoIP remote technology
- Prepare for future deployments and integrations of PCoIP solutions into your existing infrastructure

## Highlights

HP Anyware Training helps you with:

- PCoIP Training
- HP Anyware solution guidance

## Service Overview

PCoIP Training and Health Check is designed for those that have a PCoIP solution in place and want to empower their IT staff how to best manage and support their current setup.

Our certified team will provide hands-on training to assist with the installation, configuration, administration, maintenance and support of the chosen HP Anyware product.

Your team will learn tips on optimizations, deployment best practices and user management. At the end of the training, your IT staff trained will have fundamental understanding of HP Anyware deployment options and features.
